

PRESENTATION DESIGNER

Salary £18k plus bonus

Here at Eyeful Presentations, we're lucky enough to work with some of the biggest companies in the world, helping them to improve their corporate presentations. We're a fun, hardworking bunch doing our best to rid the world of boring and uninspiring presentations.

Organisations such as Microsoft, American Express, FIFA and eBay come to us to make sure that when they stand on stage, their presentations have that "wow factor".

We've never been busier and so we are looking for someone special to join our team.

As a Presentation Designer, you will need to be willing to get stuck in from day one. There's always something new in such a varied role so a 'can do' attitude and willingness to learn as you go is necessary.

The day to day role involves taking briefs from our in-house and field based consultants and turning them into great presentations that are creative, engaging and (most importantly) provide real commercial value to our customers. You will need to be able to work within brand guidelines with a keen eye for detail, whilst also demonstrating creativity and innovation. Many of our clients work to tight deadlines, so you will need to be able to work efficiently and perform well under pressure. Quality is at the fore front of everything we do at Eyeful and a keen eye for detail is essential. From time to time your role will be customer facing, so excellent communication and customer service skills are needed.

Due to the global nature of our key customer base your role will require a degree of flexible working at times, and we may even provide you with the opportunity to work abroad from time to time!

The ideal candidate must be computer literate with good experience in either Illustrator, Photoshop or InDesign. We work within a whole range of creative programmes so experience across the suite is desirable. You will have worked with PowerPoint and have knowledge of other Microsoft Office programmes.

This is a fantastic opportunity for you to take ownership of this role and develop it as the business grows further. We will be completing pre-interview telephone screening, followed by an assessment day at our head office in Desford. If you think that this sounds like your ideal role, then send us your CV with relevant experience and salary expectations - we'd love to chat!
